Click here to view the list of programs installed on your computer. In this case, I've verified the installation and cleaned up the registry. It's working now. I cannot replicate this problem on a second computer, and I have no idea what changed. If you want the archive itself, download the archive and just unpack it in a directory. Keep in mind that the zip file is the archive and should not be used. If you want the installer, download that from this web page.Q: Modifying a dictionary to store a list of dictionaries I have a dictionary with the following format: { "user1": { "files": [ { "filename": "file\_1" }, { "filename": "file\_2" } ], "files\_id": 1, "modified\_date": null, "created\_date": null, "sha1": null, "size": null }, "user2": { } } I would like to transform this dictionary into the following format: "modified\_date": null 82157476af
